TOLEDO, Ohio, Oct. 14.—It is said the reorganization committee of the Wheeling & Lake Eric, after the road is in their hands, will absorb the Cleveland, Canton & Southern, a rival. The com-mittee will also extend the road from Toledo to Cleveland.

The main line of the Cleveland, Canton & Southern extends from Cleveland to Canton. A short line near Massilion would connect this road with the Wheeling & Lake Brie. Both are coal roads, the large proportion of their treight being in black diamonds for the lake ports. The extension to Cleveland is a new idea. At present connection is made at Valley Junction with the Baltimore & Ohio's Valley line, thus giving the Wheeling an entrance into Cleveland.

Statisticlins losg ago demonstrates that one extremt of all the deaths in Christendom each year may be asfely attributed to consumption and allied disease.

There is an almost certain cure and a positive preventive for this fatal disease if taken in time. The story of what it will do is told in the following letter:

"About two and a half years ago, when I was a First Lick. It," when I was a First Lick. It, it will be severe palms in the chat, fire which I began to spit up blood and a half years ago, when I was taken with severe palms in the chat. I did so and have improved both in strength and in weight. I have not had the pithials, nor spit up any blood since last spring."

This great remedy—Dr. Pierce's Golden Medical Discovery—cures of per cent. of all laryngial, bronchial, threat and kindred affections which, if neglected lead up to consumption. It strengthens the stormach and makes the aspetite keen and hearty. It invigorates the liver and aids the natural processes of secretion and excretion. It makes the assimilation of the food perfect.
